

Affixes in English (Rough Copy)

So called (supposedly) difficult words in English are only mind-boggling if you do not understand the structure of English. English is really several languages in one. There is that area of the language which everyone, educated or not, understands. That is the Germanic aspect. It is the oldest part of English. It is also the part which forms of the core of English. Most of the most basic and most frequently used words in English are Germanic in origin.

All of the closed class words* (function or grammatical words) come from the Germanic area of English. The overwhelming majority of the most common and frequently used words in English are Germanic, rather than Latin, base. These words are rarely a problem to native English speaker. For the speaker of Latin-based (French, Italian, Spanish and Portuguese) this area of the language can be hell.

The words that English speakers have problems with are those words which are Latin and Greek based. These are the words are neither known nor spoken by everyone who speaks English. They are taught in school. Students are forced to memorize them in primary, secondary and high school. The standardized tests which students are obligated to take to graduate, are full of words from this area of the language. The SAT, ACT, GRE do not ask questions on the Germanic-based vocabulary of English. They test one's knowledge of those words known which are known only by the educated part of the English-speaking population. These words, known as collegiate, are what one is expected to write and express oneself to demonstrate one's educational level. If one has not had the benefit of an education or a good education, this area of English is as strange and alien as any foreign language.

One can learn these words by memorizing them. This site will **NOT** help you to do that. **What we WILL do is help you understand how many of collegiate words are formed. This way, even though you do not understand a word, you will be able to figure out what its meaning. This is done by studying some of the most important prefixes, roots and suffixes in English. This site was developed to help**

you to have the meaning of some of the most important prefixes and roots in English. Although the majority of prefixes and roots are from Greek and Latin origin, also included here will be those prefixes which are from Anglo-Saxon origin.

Carrala Ficklin McClain

Prefix	Origin	meaning	example of words
a-	Greek	without, lacking, no	asexual, amoral, acentric, abasia, acephalocarius
a-	Anglo-Saxon	on, into, to, toward, in	afoot, away, aside,
a-	Anglo-Saxon	added to a stem meaning 'in the process of'	aglow, agape

ab- , abs- away, from

abdomen, abdomino, abdomi (L: belly)

ac- combining form meaning 'without, lacking, not' of the part specified by the initial element (acrania, acritical, aclastic)

-ac, -ag to do action, agenda

acantha-

1. (Biology) combining form meaning 'prickle' of the part specified by the latter element
2. (Zoology) combining form meaning 'spine, prickly fin' of the part specified by the latter element

acari- acar- a mite

acer- (L) a combining form meaning 'maple tree' in the part specified by the initial element (Aceraceae, acerose, acerous)

acer- (L) a combining form meaning 'harsh, sour, sharp, bitter' in the part specified by the initial element (acerb, acerbate, acerbic, acerbity)

acet-, aceto-, combining form meaning 'vinegar' of the part specified by the latter element

acid- combining form meaning 'sour or acid' of the part specified by the latter element

acou-, acous- combining form pertaining to the sense or organs of hearing, to sound or the science of sound aeroacoustics, amblyacousi, anacusia, bioacoustics, catacoustics, diacoustics, diplacusic, dyacusia, hyperacusia, isacoustic, micracoustics, odyacusis, osteoacusis, otacoustic, paracusia, paracusia, polyacoustics

acr-, acro-

1. a combining form meaning 'height' in the part specified by the latter element
2. a combining form meaning 'tip end, high, higher or highest point, outermost' of the part specified by the latter element
3. a combining form meaning 'extremities of the body' of the part specified by the latter element

acromin, acromino acromion (projection of scapula)

act- a combining form meaning 'to do, drive, lead' of the part specified by the latter element

actin-, actini-, actino-

1. (Zoology) a combining form meaning 'the possession of tentacles' in the part specified by the latter element
2. (Physical Science) a combining form meaning 'ray beam, radiation' in the part specified by the latter element
3. (Biology) a combining form meaning 'having ray like structures, radiates in form' in the part specified by the latter element

acu-, acus- a combining form meaning 'prickle, sharpness, sharpen, needle, pointed, acute, keen, sharp' of the part specified by the latter element

ad- (Latin) motion toward, addition to, nearness to (admit, adjoin, adrenal)

ad- (Latin) motion toward, addition to, nearness to ('d' changes to c, f, g, l, p, r, s or t before words beginning with those consonants (acclaim, affirm, agglutinant, approve, arrive)

aden-, adeni-, adeno- a combining form meaning 'of a gland' or 'glands' (adenitis, adenoid, adenography)

adipo- (L) a combining form meaning 'fat, fatty tissue' of the part specified by the latter element (adipic, adipocere, adipogenous)

aeri-, aero-

1. a combining form meaning 'air, of the air' in the part specified by the latter element (aerate, aerial, aeriform)
2. a combining form meaning 'aircraft, connected with flying' in the part specified by the latter element (aerocurve, aerodyne, aeromedical)
3. a combining form meaning 'gas, of gases' in the part specified by the latter element (aerate, aerator, aerodynamics, aerobics)

aesth, esth, aesthe, esthe, aesthesia, esthesio, aesthesia, (Gr: feeling, sensation perception)

a combining form meaning 'feeling' in the part specified by the latter element (aesthophysiology, aesthocyte, anesthesiology)

agglutina (agglutinans) gluing) agglutinant, agglutination, agglutinative

agnoia- a combining form meaning 'ignorance,' 'not known' of the part specified by the latter element (agnogenic, agnosia, agnosticism)

agnus- a combining form meaning 'lamb' of the part specified by the latter element (agnus, agni, Agnus Dei)

agor- a combining form meaning 'public square,' 'open or public places as in a market place (agoraphobia, agoraphilia)

agri- a combining form meaning 'agriculture, farming' (agriculture, agricultural)

agro- a combining form meaning 'field, earth, soil, crop production' in the part specified by the latter element (agromania, agrobiolgy, agroecosystem, agronomy)

ailuro- a combining form meaning 'cat' in the part specified by the latter element (ailurophile, ailurophilia, ailurophobia)

ak- combining form meaning 'without, lacking, not' of the part specified by the initial element (akatanoesis, akinesia, akaryote)

akon- unwilling

al- combining form meaning 'equivalent to the definite article the' of the part specified by the initial element (alcove, alchemy, almanac)

ala wing alae

alb- (L) a combining form meaning 'white' in the part specified by the latter element (albiduria, albinism, albinismus, albino, alba, alb)

albu- (L) a combining form meaning 'white' in the part specified by the latter element (albuginea, albumen, albumin, albugineous)

alcohol- (Arabic, Latin) a combining form meaning 'alcohol' (alcoholic, alcoholization, alcoholuria, alcoholysis)

alevol, alveolo- alveolus

algesi-, alge- a combining form meaning 'pain' of the part specified by the latter element (algesia, algesic, algesthesia, algetic, algedonic, analgesia, analgesic)

algio-, algo- a combining form meaning 'pain' of the part specified by the latter element (algomotor, algogenic, algolagnia, algometer, algometry, algospasm, algophobia)

aliment- a combining form meaning 'to nourish, to provide' of the part specified by the latter element (alimental, alimentary, alimentation)

alkali (from Arabic) potash

allanto- susage (Med. bk/ 57)

allel-, allelo- (G) a combining form meaning 'of one another' of the part specified by the latter element (allelomorph, allele, allelism, allelochemicals)

allo- (G) a combining form meaning 'a condition differing from the normal, departure from the normal, reversal, variation' of the part specified by the latter element (allochiria, allodiploid, allogotrophia, allonym, allomorph, allorhythmia)

alpha- a combining form meaning 'leader, chief, first, beginning' of the part specified by the latter element (alpha, alphabet)

alto- (Latin) a combining form meaning 'high' of the part specified by the latter element (altofrequent, alto)

alve-, alveo (L) a combining form meaning 'channel, cavity, alveolar' of the part specified by the latter element (alveary, alveolar, alveolodental,)

amb, ambi-, ambo- (L)

1. a combining form meaning 'both, both sides' of the part specified by the latter element (ambidexterity, ambidexter, ambiguous, ambivert, ambivalent, ambivert)
2. a combining form meaning 'about, around' of the part specified by the latter element (ambient, ambitious, ambitus, amble, ambling)

ambly- (G) a combining form meaning 'dull, obtuse' of the part specified by the latter element (amblyacousia, amblyopia, amblyopia, amblyopia, amblyopia, amblyopia)

ambul-, ambulat-, -ambulat, -ambulating, ambulation, -ambulator, -ambulatory,

-ambulant, -ambulic, -ambulism, -ambulist (Latin: walk, take step) (ambulant, ambulation)

am- combining form meaning 'without, lacking, not' of the part specified by the initial element (amelia, amenia, amenorrhea, amentia, ametria, amicrobic)

amnio- (lamb) denoting relationship to the amnion

amphi-, amphi- (G) a combining form meaning 'doubly, two, both, on both sides, round about, on all sides' of the part specified by the latter element (amphibian, amphibology, amphibious, amphichroic, amphi-centric)

amphi- (G) a combining form meaning 'both' of the part specified by the latter element (amphogenic, amphophilic, amphopeptone, amphophilous)

amy- a scratch amychophobia, amyctic

amygdale-, amygdalo- denoting relationship to:

1. an almond-shaped structure amygdala, amygdalectomy, amygdaline, amygdalin, amygdaloid
2. a tonsil amygdaline, amygdaline, amygdalitis, amygdaloid, amygdalolith, amygdalopathy

amyl-, amylo- a combining form meaning 'of starch' of the part specified by the latter element (amylaceous, amylase, amylogen, amylogenesis, amyloid, amylo-rrhea, amylo-lysis)

an- combining form meaning 'without, lacking, not' of the part specified by the initial element (anacanthous, anacid, anaerobe, anadenia, anaerophyte, anaeroplasty)

ana- (G, L)

1. a combining form meaning 'up, upon, against' of the part specified by the initial element (anabamous, anabolism, Anabas, anarosis, anacathartic)
2. a combining form meaning 'again, anew, back, re' of the part specified by the initial element (Anabaptist, anaclastic, anadiplosis, anagram)
3. a combining form meaning 'throughout, according to, pertaining to' of the part specified by the initial element (anacard, anacardiaceous, anarotic, anal)

anc, anchylo-, ancylo- a combining form meaning 'hook, joint' of the part specified by the latter element (ancistroid, anchor, ancylostomiasis, acyroid, andylosed, ankylosis, ankyroid)

ancon- a combining form meaning 'elbow, pertaining to the elbow' (anconad, anconagra, anconéal, anconitis, anconoid)

andr-, andro-

1. a combining form meaning 'male' of the part specified by the latter element androblastoma, androcyte, androgenesis, androgenic, androglossia, andrology, androphobia)
2. (in botany anther, stamen) androdioecious, androdynamous, androgenous, andromonoecious, andropetalous, androphore)

anemo- a combining form meaning 'wind, relationship to the wind' of the part specified by the latter element (anemograph, anemography, anemometer, anemophilous, anemophobia)

anesthesia a combining form meaning 'want or lack of feeling or sensation' of the part specified by the latter element (anesthesthesia, anesthesia, anesthetic, anesthetist, anesthetize, anesthetometer)

angei, angi-, angio- a combining form meaning 'a case, vessel, capsule relating to seed, blood or lymph vessels' of the part specified by the initial element (angiectasis, angienchyma, angioataxia, angioblastic, angiocardopathy, angiology)

anglo- English or Anglican

angulus angle

angus narrow

anhelare to breathe with difficulty, to pant

anima, anim (L: life, breath, soul, mind) animus- spirit, living, animate animosity, disanimate, equanimity, equanimous, inanimate, magnanimous, reanimate, unanimous (anima, animal, animus, animism, animable, animate, animator, animation)

animadverted to observe, consider, turn the mind to, criticize

aniso- (G) a combining form meaning 'unequal' of the part specified by the latter element (a= deprived or lack of, isio= equal), anisocytosis, anisodynamous, anisogeny, anisognathous, anisochromatic, anisochromia, anisocratic

annal, annul annus (L)

1. a year annals, annual, annually, annuity
2. annulus, annular, annulorrhaphy, annulose, annulus

ano- anus

ano- upward

anomalo- irregular

anorexia (G) want of appetite **anorexia**

aniso- unequal, dissimilar

anomo-, anomo- irregular

ansa a handle

anser goose

antagonist an opposition

anta (from ante, before)

ante- (G, L) a combining form meaning 'before in time or place' before the onset of a fever, ante cibum, ante mortem, antepartum, antedate, antebellum, antenatal, antepenult, antepenultima

antero- (L) a combining form meaning 'situated in front, fore, before' (anteinferior, anterolateral, anteroposterior, antetype, anteversion, antexed)

anther- (L) flowery plant, flowery, to bloom (antheral, antheridium, antheriferous, anthesis)

antho- (G) a flower, of a flower anthocyanin, anthobian, anthocarp, anthography, anthoid, anthoporous

anthrac-, anthraco- (G) a combining form meaning 'coal, carbon, carbuncle' anthracoid, anthracometer, anthracosis

anthropo- (G) a combining form meaning 'man (in the generic sense,)human' of the part specified by the latter element (anthropocentric, anthropology, anthropoglot, anthropomorphism, anthropophagy, anthropophilic, anthrpophobia (see theoanthropism) paleoanthropic, paleanthropology)

ant-, anti- (G) a combining form meaning 'against, opposite of (antianemic, antianibody, antibody, antidote, antiseptics, antispasmodic, antitheism)

ante- before anteflexion

antro (G, L) cavern, sinus or maxillary antrum (antrodynia, aantronalgia, antroscope, antrotomy, antrotympanic)

aort, aorto **aorta**

ap combining form meaning 'without, lacking, not' of the part specified by the initial element (apathy, apellous, aphasia, aphilopony, aphose, aphotic, aphrenia, apod,

apodal,)

ap-, apo (G) implying separation or derivation from, off, from away from
(apochromat, apocarps, apodeme, apogamy, apograph, aponeurosis, apopetalous)

append-, appendo- appendix

apianus belong to bees (from apis relating to bees)

apt to fasten

aqua-, aque, aqueo- water

arachn- (G) spider arachnean, arachnoid, arachnology, arachnodactyly,
arachnoidism

arbiter a witness or judge

arbor (L) tree, beam (arbor, aboraceous, aboreous, aboret, arboretum,
arboriculture, arborous, arborvitae

arch, arche, archi, archaeo-, archeo- (G, L) ancient, first, prior, original, principal,
the earliest, most basic or bottom most (archaic, archecentric, archegenesis,
archeocyte, archetype, archeology, archinephron, archiplasm, archaeological,
archeological, , archaeozoic

arch-, arche-, archi (G) chief, principal, main, having authority over others of their
class (used in forming titles of rank (archduke, archbishop, archangel, archchemic,
archdeacon, archdiocese, archenemy, archipelago, architect, architecture

archaeo- a combining form meaning 'ancient'

arena (L) sand, a sandy place arena, arenaceous, arenoid, arenaceous, arenicolous,
arenose

areo- (L) a combining form meaning 'the planet Mars' (areocentric, areology

argento- (L) a combining form meaning 'silver' used in the formation of compound
words (Argentina, argentine, argentol, argentiferous, argentous)

argus- bright

aril dried grapes

aristo- a combining form meaning 'best' of the part specified by the initial element

arm- armor

arrheno- male

ars- art

arteri-, arterio- artery

arteriol-, arteriolo- arteriole

arthr-, arthro- joint

article- joint

asa gum

asc-, asco- a combining form meaning 'sac', wineskin, bladder

asper- uneven

aster-, astra, astro star astronomy, astral, astronomical

asthenia- without strength

astro- a combining form meaning 'pertaining to stars or celestial bodies' of the part specified by the latter element

atel-, atelo- incomplete, imperfect

ather-, athero- fatty plaque

athlon- meaning 'contest'

athr-, athro-joint

atreto- absence of a normal opening

atri-, atrio- atrium

aud, audi, audio- a combining form meaning 'sound within the range of human hearing' of the part specified by the latter element

auri- a combining form meaning 'gold'

auri- a combining form meaning 'ear'

-auricular

1. pertaining to the ear or to the sense of hearing
2. perceived by the ear, obtained through hearing

- 3. communicated or known by report
- 4. shaped like an ear
- 5. (anatomy) of an auricle
- 6. shaped like an ear
- auricule (from auris)
 - 1. the external ear
 - 2. either two chambers of the heart
- 3.(botany and zoology) an earlike part or organ

auto-

- 1. a combining form meaning 'self, same, spontaneous' of the part specified by the initial element
- 2. a combining form meaning 'automobile' of the part specified by the initial element
- 3. a combining form meaning 'automatic' of the part specified by the initial element

auxo- increase

bacill- small staff, rod

bacter-, bacteri- , bacterio- combining form meaning 'bacteria'

baro- a combining form meaning 'atmospheric pressure' in the part specified by the latter element

batho-, bathy- a combining form meaning 'depth' in the part specified by the latter element

balan-, balano- glans penis

bene- a combining form meaning 'well'

bentho-

- 1. a combining form meaning 'depth or bottom of the ocean' in the part specified by the latter element
- 2. a combining form meaning 'flora and fauna at the bottom or depths of the ocean' in the part specified by the latter element

bi- a combining form meaning 'twice, two'

biblio- a combining form meaning 'book'

bin- a combining form meaning 'two at a time'

bio, bi, bia, -bial, -bian, -bion, biont (Gr: life)

bi-, bio- a combining form meaning 'life' in the part specified by the latter element

abiotrophy, abiocoen, abiology

blasto- a combining form meaning 'bud sprout, embryo, formative cells or cell layer' of the part specified by the latter element blastoma

blasto- a combining form meaning 'germ'

blephar-, blepharo- a combining form meaning 'eyelid' of the part specified by the initial element

bol- ball

borborygmo, borborygm (Gr: intestinal rumbling, to rumble, gurgling)

brachia-, brachio- a combining form meaning 'arm' in the part specified by the initial element

brachy- a combining form meaning 'short, brief' in the part specified by the initial element

branchiae, branchia a combining form meaning (Zoology) 'gills, organs for breathing the air contained in water' in the part specified by the initial element

brady- slow

bronch-, broncho, bronchio- (Anatomy) a combining form meaning 'bronchi' of the part specified by the initial element

bronto-

1. a combining form meaning 'lightning' in the part specified by the latter element
2. (paleontology) a combining form meaning 'hughness' in the part specified by the latter element

bucc-, bucco- cheek

by-, bye- by-product, bystander, bye-law, by-election

byro- most, liverwort

caco- G. a combining form meaning 'bad, evil, poor harsh' in the part specified by the latter element (

cad-, cas- fall cadence, cascade, causal

cal- calcium
calcioprivia, calcipexy, calcipenis calcification

cal- calyx
calices, calcicosis, caliectasis, calietomy

calcane-, calcaneo calcaneum (heel bone)

calc-, calco- calcium

calli- a combining form meaning 'beautiful' of the part specified by the latter element
Calliphora, calligraphy, calligraphist, calligrapher

cant sing,, cantata, chant

cap, cep take captive, accept

capit, capt, ceps, chapt, chef, cip, cup (L: head)

capno-, capn-, capnod- a combining form meaning 'smoke, vapor' in the part specified by the latter element

capri- a combining form meaning 'goat'

carcino- a combining form meaning 'cancer' of the part specified by the latter element
adenocarcinoma

cardi-, cardio- a combining form meaning 'heart'
tachycardia, destrocardia, acardia

carno, carn, carne, carni (L: flesh, meat)

carpo- a combining form meaning 'fruit, fruiting body'

carpo- a combining form meaning 'wrist'

cat, cata- a combining form meaning 'down, downward, against, back'
cataract, catheter

caud-, caudo-, caudal- a combining form meaning (Zoology) 'of, at or near the tail or posterior end of the body' in the part specified by the initial element
acaudal

cec- blind cecopexy, cecal

ceco- ('blind gut or intestine') first part of the large intestine cecocele, cecocolostomy, cecopexy

ced, go, yield procedure

ceno-

1. a combining form meaning 'common' of the part specified by the initial element cenesthesia

caeno-, caino-, ceno- a combining form meaning 'new, recent'

cente- puncture enterocentesis

centi – one hundred

ceph-, cephal-, chephalo- head

cerato- horn

cerebr, cerebro the mind, the brain, cerebrum

centi- a combining form meaning 'hundredth or hundred'

centr-, centri-, centro a combining form meaning 'center'

cephal-, cephalo-, a combining form meaning 'head'
autocephalous, autocephaly, cynocephalus

cerat-, cerato, kerat, kerato- a combining form meaning 'horn, cornea'

cerebr-, cerebro a combining form meaning 'cerebrum' (brain)

cer-, cero- a combining form meaning 'wax'

cervic-, cervico- neck, cervix uteri (neck of uterus)

cheil - lips

cheli- a combining form meaning 'claws'

cheir - hand

chelro-, chiro- a combining form meaning 'hand' of the part specified by the initial element

chemo- a combining form meaning 'chemical, chemically induced, chemistry'

chiro- a combining form meaning 'hand or hands'

chlor-

1. a combining form meaning 'green' of the part specified by the latter element
2. a combining form meaning 'chlorine' of the part specified by the latter element (chemistry)

chloro-

1. a combining form meaning 'green' of the part specified by the latter element
2. a combining form meaning 'chlorine' of the part specified by the latter element

chol,,chole a combining form meaning 'bile, gall' of the part specified by the initial element

cholangio- bile vessel

cholecyst-, cholecysto- gall bladder

choledoch-, choledocho- bile duct

chondr-, chondrio- a combining form meaning 'cartilage' of the part specified by the initial element

cholecyst- a combining form meaning 'gall bladder'

chorda – L.- a combining form meaning 'tendon' in the part specified by the latter element

chori- protective fetal membrane chorioallantois, chorioamnionitis, choriocarcinoma, chorion

choroid-, choroido- choroid

chrom

1. a combining form meaning 'color' of the part specified by the initial element
2. a combining form meaning 'chromium' of the part specified by the initial element

chromato- a combining form meaning 'color' of the part specified by the initial element **autochrome**

chrono- a combining form meaning 'time' of the part specified by the initial element **anachronism**

chrys-, chryso- a combining form meaning 'gold' of the part specified by the initial element

chylo- a combining form meaning 'juice'

ciado- a combining form meaning 'branch' of the part specified by the latter element

cicatr- scar **cicatrectomy, cicatrizant, cicatrize**

cili- eyelid **ciliary, ciliectomy, cilioretinal, ciliotomy**

cine- a combining form meaning 'motion picture'

circum- a combining form meaning 'roundabout, around, to go around' of the part specified by the initial element

cirrh-, cirrho- yellow

cis- a combining form meaning 'on the near side of'

clin-, clino- G.- a combining form meaning 'bent, inclined' in the part specified by the latter element

claustr- shut **claustral, claustrophobia, claustrum, clausura**

cleisto- closed, capable of being closed **cleistocarp, cleistogamous**

clino-
combining form meaning 'bend, slope, incline' (to go down or inherited from an ancestor)

cocc-

col-, com-, con- together **combine, confound, collate**

col-, colo-, colon- lower intestine **colonic**

colp-, colpo- hollow, vagina

condyl-, condylo- condyle

corne-, corneo- cornea

coni-, conio- dust

contra- against

copro- feces **coproma**

cor, cord, cour (Latin: heart)

core-, coro- pupil

corp, corpor, corpus, (Latin: body)

cortic-, cortico- a combining form meaning 'cortex'

cosmo- a combining form meaning 'world, universe'

cost-, costo- a combining form meaning 'rib'

crani-, cranio- a combining form meaning cranium (skull of a vertebrate/ part of the skull that encloses the brain) acrania

cret-, crin- distinguish, separate off accretion, discrete, crinin, crinogenic, crinology

crur shin, leg

cryo- a combining form meaning 'icy cold' in the part specified by the latter element
cryalgnesia, crymodynia, cryogen

crypt-, crypto- hide, conceal

cutane-, cutaneo- skin

cult- tend, cultivate

cune- wedge cuneiform

cyan-, cyano- a combining form meaning 'blue, dark blue' in the part specified by the latter element

cycl-, cyclo- a combining form meaning 'cycle' in the part specified by the latter element

cycl-, cyclo- ciliary body

cyno- a combining form meaning 'dog' in the part specified by the latter element

cymo- a combining form meaning 'wave' in the part specified by the latter element

cyst-, cysto- a combining form meaning 'cyst' in the part specified by the latter element

cyst-, cysto- bladder

cyto- a combining form meaning 'cell' in the part specified by the latter element

dacryo- a combining form meaning 'tear' of the part specified by the latter element

dactylo, dactyl, dactylio, -dactly, -dactylia, -dactylic, -dactylism, -dactyloid, -dactylous, dactyly (Gr: a combining form meaning 'finger, toe' of the part specified by the initial element)

de-

1. a combining form meaning 'privation' of the part specified by the latter element

2. a combining form meaning 'removal, separation' of the part specified by the latter element
3. a combining form meaning 'negation' of the part specified by the latter element
4. a combining form meaning 'negation' of the part specified by the latter element
5. a combining form meaning 'descent, reversal' of the part specified by the latter element
6. a combining form meaning 'from, away from, of, out of' of the part specified by the latter element

dec-, deca- a combining form meaning 'ten'

deci- a combining form meaning 'tenth' of the part specified by the latter element

decem- ten

dehydro- a combining form meaning 'dehydrogenated' of the part specified by the latter element

deka- a combining form meaning 'ten' used in the name of metric units which are ten times the size of the unit denoted by the latter element

demi-

1. a combining form meaning 'half' in the part specified by the initial element
2. a combining form meaning 'lesser' in the part specified by the initial element

demo- a combining form meaning 'people' of the part specified by the latter element

demon-, demono- a combining form meaning 'demon'

dendr-, dendri-, dendro-, dendron- a combining form meaning 'tree'

denti- a combining form meaning 'tooth' in the part specified by the latter element

derma, dermatic, -dermatous, -dermis, -dermal, -dermic, -dermoid, -dermatoid
dermo, ,derm, dermato, -dermatous, (Gr: skin)

dermato-, dermo- a combining form meaning 'skin' in the part specified by the initial element

demo- people

demon- demon

dendro- tree

dent-, denta-, denti-, dento- tooth

derma-, dermat-, dermato- the skin

desm, desmo- a band, bond or ligament

deuto-, deutero- a combining form meaning 'second' of the part specified by the latter element

dextro- a combining form meaning 'right' of the part specified by the latter element

dextro- (chemical prefix)

di- a combining form meaning 'two, twice, double' of the part specified by the latter element

di- in chemistry 'having two'

dia- through, between, apart, across, completely

1. a combining form meaning 'passing through' of the part specified by the latter element
2. a combining form meaning 'completely, thoroughly' of the part specified by the latter element
3. a combining form meaning 'going apart' of the part specified by the latter element
4. a combining form meaning 'opposed in moment' of the part specified by the latter element

dialect- a combining form meaning 'variety of a language or discourse' of the part specified by the latter element

dicho- a combining form meaning 'in two parts, in pairs' of the part specified by the latter element

dic, dict, dit (L: talk, speak, say, tell, declare)

digit (Latin: finger, toe)

dino- a combining form meaning 'terrifying, frightful' of the part specified by the latter element

dipl-, diplo- a combining form meaning 'double, in pairs' of the part specified by the latter element

dis- a combining form meaning 'apart, asunder, away, utterly/having a privative, negative or reversing force

disc-, disco- disk or disk shaped

dist-, disto- far, farthest

disto- pertaining to the distol

dodeca- a combining form meaning 'twelve' of the part specified by the latter element

dolicho- a combining form meaning 'long or narrow'

dor-, dorsi-, dorso- combining form meaning 'back' of the part specified by the latter element

drom course

duc lead ductile

duo- a combining form meaning 'two' of the part specified by the latter element

duoden-, duodeno- duodenum

dyna- combining form meaning 'power' of the part specified by the latter element

dys- combining form meaning 'ill, painful, difficult bad' of the part specified by the latter element

e- (the same meaning as 'ex') out, out of, from, without eject, egress, **ebonation**

fund-, fus pour fundo fusus

galact- milk

gam marriage

gangli swelling

gastr-, gastro- a combining form meaning 'stomach

gen- be produced or originate, produce, originate

genito- a combining form meaning 'genital' of the part specified by the initial element

geo- a combining form meaning 'earth' of the part specified by the latter element
geobenthos

geno- a combining form meaning 'race' of the part specified by the latter element

germ- bud, a growing thing in its early stages germinal, germen, germinis

geron- a combining form meaning 'an old man' of the part specified by the latter element

geratos- a combining form meaning 'old age' of the part specified by the latter element

gest- bear, carry gestus, gesture, gestations

giga- a combining form meaning 'billion'

gingiv-, gingivo- gum(s)

gland acorn glans, glandis

gli-, glio- glue

gli-, glio- neuroglia

glomerul-, glomerulo- glomerulus

gloss-, glosso-, glotto- a combining form meaning 'tongue' of the part specified by the latter element

glott tongue, language glottic

gluc-, gluco- sugar, sweetness glucophenetidin

gluttin- glue gluten, glutinis

glyc-, glycol- sugar, sweetness

glykys sweets glycemia, glycyrhizin

gon-, gono- a combining form meaning 'reproductive, sexual' of the part specified by the latter element

gonad-, gonado- gonads

gonad-, gonado- sex glands

gram- scratch, write, record

gran grain, particle

granul-, granulo- granule

grapho, graph, -graph, -graphy, -grapher, -graphia (Gr: to scratch, write, record, draw)

a combining form meaning 'writing, drawing' in the part specified by the initial element

grav heavy gravis

gym-, gymno- a combining form meaning 'naked, bare, exposed' in the part specified by the latter element

gyn-, gynec- gynec- a combining form meaning 'women, female' in the part specified by the latter element

gyr-, gyro- a combining form meaning 'ring, circle, spiral' in the part specified by the latter element

haem-, hem blood

hagio- holy

haglo- a combining form meaning 'saint, holy'

hapt touch

hect- hecto- a combining form meaning 'hundred' in the part specified by the latter element

helc sore, ulcer helcosis

helico- a combining form meaning 'spiral'

helio- a combining form meaning 'sun' in the part specified by the latter element

hemangi-, hermangio- blood vessel

hemat-, hermato- blood

hemo- blood hemorrhage, hemorrhoid

hemi- one half

hepat-, hepato- a combining form meaning 'liver' in the part specified by the latter element

hepta- a combining form meaning 'seven' in the part specified by the latter element
heptatomic, heptavalent

hered heir heredoimmunity

hernio- a combining form meaning 'hernia'

herbi- vegetables as in herbivore

hetero- different

hex-, hexa-, hexyl- six

hex- have, hold, be

hidr- sweat

hist- web, tissue histodialysis

hippo- a combining form meaning 'horse' of the part specified by the latter element

hist-, histo- a combining form meaning 'tissue' in the part specified by the latter element

hod- road, path hodoneuromere

holo- a combining form meaning 'whole, entire' in the part specified by the latter element

hom-, homo- a combining form meaning 'common, same' of the part specified by the initial element homomorphic

homeo, homoeo a combining form meaning 'similar' of the part specified by the latter element

horm- impetus, impulse hormone

humer-, humero- humerus

hyalo- a combining form meaning 'glass' of the part specified by the initial element

hydat- water hydatism

hydr-, hydro- a combining form meaning 'water' of the part specified by the initial element hydraulic

hydr-, hydro- a combining form representing hydrogen of the part specified by the initial element

hyeto- a combining form meaning 'rain' of the part specified by the initial element

hygro- a combining form meaning 'wet, moist, moisture' of the part specified by the initial element

hylo- a combining form meaning 'wood, matter' of the part specified by the initial element

hymeno- a combining form meaning 'membrane' of the part specified by the initial element

hymen-, hymeno- a combining form meaning 'membrane or skin' of the part specified by the initial element

hymen

(anatomy) fold of mucous membrane partly covering the external orifice of the vagina in a virgin

Hymen
ancient Greek god of marriage

hymeneal
relating to the god of marriage

nat-, nato- birth

neo- a combining form meaning 'new, recent, revived, modified' of the part specified by the latter element

necro- a combining form meaning 'the dead, corpse, dead tissue' of the part specified by the latter element

nepho- a combining form meaning 'cloud' of the part specified by the latter element

nephr-, nephro- a combining form meaning 'kidney' of the part specified by the latter element

neur-, neuro- a combining form meaning 'nerves, nervous system' of the part specified by the latter element

noct-, nocto- night

nom- a combining form meaning 'name' of the part specified by the latter element

noso- a combining form meaning 'disease' of the part specified by the latter element

notc-, nocti- a combining form meaning 'night' of the part specified by the latter element

nomo- a combining form meaning 'custom, law'

normo- a combining form meaning 'normal or close to the norm' of the part specified by the initial element

noto- a combining form meaning 'the back' of the part specified by the initial element

nucle-, nucleo- nucleus

nyct-, nycti-, nycto- a combining form meaning 'night' in the part specified by the latter element

ob- against object, objective

occulo- a combining form meaning 'eye' of the part specified by the initial element

onco- a combining form meaning 'tumor' of the part specified by the latter element

octa- a combining form meaning 'eight' of the part specified by the latter element

odonto, odont, odon, -odont, odonic, -odontic, odontia, -odontoid (Gr: tooth, teeth)

oen-, oino- a combining form meaning 'wine' of the part specified by the latter element

olig-, oligo- a combining form meaning 'few, little, scant, a deficiency' of the part specified by the latter element

oleo- a combining form meaning 'oil' in the part specified by the latter element

olig-, oligo- scanty

omento, oment (L: tissue, intestine)

omni- a combining form meaning 'all, everywhere' of the part specified by the latter element

omno- a combining form meaning 'shoulder' in the part specified by the latter element

omphal-, omphalo- a combining form meaning 'naval' in the part specified by the latter element

onco- a combining form meaning 'tumor, mass' of the part specified by the initial element oncogenic

oneiro- a combining form meaning 'dream' in the part specified by the latter element

onoma, onyma a combining form meaning 'name' of the part specified by the latter element

onto- a combining form meaning 'being' of the part specified by the latter element

onychial onyx (nail)

oophor-, oophoro- a combining form meaning 'egg, ovary'

ophthalm-, ophthalmic a combining form meaning 'eye' of the part specified by the latter element

opistho- a combining form meaning 'back, behind, rear'

opti-, opto- a combining form meaning 'snake' in the part specified by the latter element

orchido, orchid, orchis, orchid, -orchium (Gr> L. testes, testicles)

orga, organ (Gr: organized structure/ pertaining to a specific body part with specific function or set of functions/instrument, tool, implement)

ornitho- a combining form meaning 'bird' in the part specified by the latter element

or-, oro- mouth

1. a combining form meaning 'mountain' of the part specified by the initial element

2. a combining form meaning 'mouth' of the part specified by the initial element

ortho- a combining form meaning 'upright, right, straight, correct' of the part specified by the initial element

os (L: bone)

ost-, ostia (L: mouth, entrance, opening)

osmatic pertaining to the sense of smell (hyperosmia)

osmo- a combining form meaning 'odor' of the part specified by the latter element

oste-, osteo- a combining form meaning 'bone' of the part specified by the latter

element

ot-, oto- ear

ovari-, ovario ovary

ox-, oxo-, oxy- a combining form meaning 'containing oxygen' of the part specified by the latter element

pale-, palae-, paleo- a combining form meaning 'old, ancient' in the part specified by the latter element

pan-, pant-, panto- a combining form meaning 'all'

pancreat-, pancreato- pancreas

para-

1. a combining form meaning 'guard against, ward off against'

2. a combining form meaning 'at the side of, alongside' paradox, parallel

pari- a combining form meaning 'equal' of the part specified by the latter element
